## CLIMBER BY LUDEWIG

THE GLASS SLAT CABINET WITH COMFORT OPENING

# CLIMBER BY LUDEWIG

## PRODUCT ADVANTAGES

---

CLIMBER by Ludewig brings the aesthetic world of glass into the kitchen. The electronically operated door captivates with its sophisticated real glass slats and is an elegant design solution for every kitchen.

The motorised, sensor-controlled opening mechanism makes for a much more comfortable operation. It is sufficient to lightly touch the sensor underneath the wall cabinet for the glass slats to smoothly slide up.

The slats are produced from ESG (tempered safety glass) thanks to which they withstand everyday wear and tear. With their 13 cm slat width, the slats in six different colour finishes create a harmonious, two-dimensional front.
